MEDICARE LEVY SURCHARGE

Rates	0.0%	1.0%	1.25%	1.5%

- For families with 2 dependants who are children, the surcharge thresholds to tiers 1, 2 and 3 are increased by \$1,500. The thresholds then increase by \$1,500 for each additional child after the second.

Surcharge amount depends on the taxable income, reportable fringe benefits of the taxpayer, reportable superannuation contributions, and net investment losses (i.e. "income for surcharge purposes").

MEDICARE LEVY - 2018 - 19 THRESHOLDS

The general rate of the Medicare levy is 2% of taxable income, subject to exclusions and reduced levy as per table below.

Taxpayer	No levy if income does not exceed \$
Individual	22,398
Members of a family with:	(family income)
0 dependents	37,794

Each additional dependent	+3,471
Senior and pensioner Australians¹	35,418
Senior Australian w/spouse and 0 dependents	49,304
Each additional dependent	+3,471

- Entitled to Senior and Pensioner Tax Offset (SAPTO). Eligible seniors will not pay Medicare levy until they begin to incur an income tax liability.

Note: the thresholds for 2019 - 20 are unlikely to be known until May 2020 (usually announced in the Budget).

SPOUSE CONTRIBUTIONS - 2019 - 20

Contributions above the annual contributions caps will be subject to excess contributions tax levied on the individual.

2018 - 2019, and 2019 - 2020 income year		
Type of contribution	Annual contributions cap - per person (\$)	Excess contributions tax
Concessional	25,000 ¹	N/A ²
Non-concessional	100,000 ⁵	47% ^{3,6}
TFN not quoted ⁴	N/A	47% ³

- From the 2017 - 18 Financial Year, a concessional contribution cap of \$25,000 applies regardless of age.
- Excess concessional contributions tax no longer applies to excess super contributions made on or after 1 July 2013. From that date, excess concessional contributions are taxed at the taxpayer's marginal tax rates.
- Includes the 2% Medicare levy.
- Where a member's TFN has not been quoted to a super fund by 30 June each year, this "no-TFN contributions income" is taxed at the outlined rate in the hands of receiving fund. A super fund must return non-concessional contributions within 30 days where the member has not quoted a TFN.
- Individuals under 65 may bring forward the non-concessional cap for the next 2 years (\$300,000 for 2018 - 19), if their super balance is less than \$1.4M.
- From 1 July 2013, taxpayers have a release option in relation to non-concessional super contributions.

1. Assessable income, reportable fringe benefits and reportable employer super contributions.
2. If amount payable < \$20, minimum payment = \$20.

Government co-contribution (up to max \$500) is 50% of eligible personal superannuation contribution made to a complying super fund or RSA during income year. Must be under age 71 and lodge a tax return with super balance < \$1.6M and not contributed more than non-concessional contributions cap.

DEPRECIATION/CARS

SMALL BUSINESS ENTITIES - 2019 - 20

- Immediate deduction for depreciating assets costing less than \$30,000¹ (until 30 June 2020)
- Other depreciating assets allocated to general small business pool.
- Deduction (on diminishing value basis) is generally opening pool balance x 30% for general pool. Half pool rate (i.e. 15%) for new acquisitions (in the first year).
- Certain depreciating assets are excluded e.g. buildings.
- Assets must be first acquired at or after 7.30pm (AEDT) on 02 April 2019 and first used or installed ready for use on or before 30 June 2020. You can immediately deduct the business portion of most depreciating assets costing less than \$25,000 each if the assets acquired from 29 January 2019 until before 7.30pm (AEDT) 2 April 2019. You can immediately deduct the business portion of most depreciating assets costing less than \$20,000 each if the assets acquired from 7.30pm (AEST) on 12 May 2015 until 28 January 2019. The threshold reverts to \$1,000 from 01 July 2020.

UNIFORM CAPITAL ALLOWANCE SYSTEM - 2018 -19 and 2019 -20

Decline in value of assets worked out using Prime Cost (PC) method or Diminishing Value (DV) method:

PC method	DV method
Assets cost ¹ x (days held/365 ²) x (100%/Assets effective life)	Base value ¹ x (days held/365 ²) x (200%/Assets effective life)

1. Base value is either the cost of the asset (in the first income year) or the opening adjustable value for that year (in later income years).
2. "365" does not become "366" for a leap year.

- Apportionment is required in the year of acquisition or disposal and where the asset is also used for non-taxable purposes.
- Pooling for low cost/low value depreciating assets (i.e. cost/value <\$1,000) is 18.75% in the year of allocation and 37.5% pa thereafter.
- Pooling is also allowed for "in-house software" expenditure but it is depreciated at a different rate to the low cost/low value pool.
- Immediate deduction for non-business taxpayer for assets costing \$300 or less.
- Certain assets are excluded from uniform capital allowance system, e.g. buildings, certain primary production assets, and some vehicles.

CAR DEPRECIATION COST LIMIT

The 2018 - 19 and 2019 - 20 motor vehicle depreciation cost limits are \$57,581.

CAR EXPENSES - PER KILOMETRE RATES

Business km travelled ¹	Cents per km/Business usage	Maximum deductions \$
